

CARELESS HUNTER TAKES BOY'S LIFE

August Osterberg Aged 17, Is
Mistaken For Deer Near
Conover

Another fatal hunting accident be-
fore the opening of the deer sea-
son occurred Friday near Conover.
The victim was August Osterberg,
the seventeen year old son of a
well known farmer in that vicinity.
The boy was cutting brush on a road
at Pioneer Lake when he was mis-
taken for a deer by a hunter. He
was shot through the chest, the bul-
let going out through the left should-
er. August was dead when found by
his father an hour after the shot
was heard. It is believed that his
death was instantaneous.

The identity of the hunter respon-
sible for the shooting is not known.
After learning of his mistake in shoot-
ing a human being the coward
sneaked away into the woods.
Conover are said to be fairly alive
with hunters and it would be no
easy matter to apprehend the man
who killed Osterberg. The theory
that he was shot by a stray bullet is
scorned as the nature of the wound
showed that deliberate aim had been
taken.

FIND IRON ORE NEAR THIS CITY

Boys Discover Outcropping Of
Mineral On Goldstrand
Farm

The outcropping of a vein of iron
ore has been discovered on the Gold-
strand farm one mile north of the
city limits. The discovery was made
by two boys hunting rabbits. The
heavy rains of the past summer and
fall have washed the loose surface
from the ore bed. The width of the
bed has been traced east and west
sixty rods. On account of surface
water it is impossible to dig down
to any great depth at the present
time. It is stated on authority that
a company will be organized and a
steam drill placed in operation on
the ore bed at once.

This find is no great surprise be-
cause it is a well known fact that
there are a number of outcroppings of
iron ore in Oneida county, and it is
only a question of time until they
will all be tested.

Not so very many miles north of
Rhinelander E. C. Carpenter of Chi-
cago, who is supposed to represent
the United States Steel company,
has invested in the neighborhood
of \$300,000 in mineral lands and
now has a steam drill testing the
same. An independent company in
about the same locality is also op-
erating a drill on lands they own.

REBUILDING FLOODED CITY

Black River Falls Will Be More Mod-
ern Than Before

Sam Moberg, who spent Sunday at
Black River Falls, was surprised to
note the rapid progress toward re-
building that city has made since
the flood. The city is being recon-
structed on a much more modern
plan than before. The dam is nearly
completed and the electric light
plant is rebuilt but cannot be used
until the reservoir is finished. Mc-
Gillivray's sash and door plant has
been rebuilt on a larger scale than
the old factory and will be in op-
eration as soon as power is available.
In all since the flood about a dozen
substantial brick buildings have been
erected. Old residents of Black
River Falls say that the entire flood-
ed district will be rebuilt as soon as
possible.

JURY ACQUITS HOFFBERGER

Farmer Not Guilty Of Killing His
Brother-in-Law

Fred C. Hoffberger, the Tripoli
farmer charged with killing his brother-in-law, William Eller, was ac-
quitted of the charge by a jury in
Lincoln county circuit court at Mer-
ill Saturday. The jury was out from
1 p. m. to 3:15 p. m.

Hoffberger shot Eller at the farm-
er's home several weeks ago in self
defense. Eller was intoxicated and
abused Hoffberger. It was testified,
and threatened to attack him. In or-
der to protect himself against the
man's wrath Hoffberger was obliged
to shoot.

The acquittal of Hoffberger meets
with the general approval of all
who were familiar with his case. He
is a peaceful law abiding farmer and
well thought of in his community.

HOLD WUNDERLICH FOR MAN'S DEATH

Coroner's Jury Finds He Set
Gun Which Took Life Of
Stanley Currie

Rex J. Wunderlich, a prominent
farmer and hotel keeper of Three
Lakes, was arrested Saturday after-
noon on the charge of having placed
the set gun which caused the death
of Stanley R. Currie, the Three
Lakes school principal, on Sunday,
November 3.

Wunderlich's arrest followed the
verdict of the coroner's jury that in-
vestigated the shooting of Currie. The
inquest was conducted in this city
Saturday afternoon by Coroner Chas.
Decanter. The jury after the com-
pletion of testimony found that the
gun which ended the life of Mr. Cur-
rie was placed in the woods by Wun-
derlich.

The jury was composed of A. J.
Lytle, Clayton Vaughan, Herman Zan-
der, P. J. Cain, Michael O'Malley
and O. A. Kelden all of this city.
Their verdict was as follows:

"That said S. R. Currie came to
his death at a place about 3 miles
north of the village of Three Lakes,
Oneida county on the 3rd day of
November, 1912, at about 6:45 a. m.
Further that the deceased came to
his death by being shot by a set gun
said set gun having been set and
placed in position by R. J. Wun-
derlich of Three Lakes."

Wunderlich is held on a charge
of manslaughter. His bail was placed
at \$5000 which was furnished late
Saturday night. His hearing was ad-
journed until Saturday, Nov. 20.

At the inquest three witnesses
were examined, R. J. Wunderlich, W.
J. Neu and Archie Nelson. The
witnesses were not permitted to
hear each other's testimony. It was
chiefly through the testimony of Ar-
chie Nelson, a youth, that Wun-
derlich was held. Nelson testified to
being with Wunderlich when he
placed the death trap, which killed
Currie, in the woods. The gun, Nel-
son stated, was set on the Saturday
before the tragedy. The boy's ad-
mission was secured through the ef-
forts of Sheriff Crofoot and Dis-
trict Attorney Fricke, who by shrewd-
ly questioning Nelson in private,
gained from him the startling evi-
dence.

Wunderlich is a resident of
Three Lakes and well known through-
out the county. He has many busi-
ness interests in this county and
elsewhere. He formerly lived in
Antigo.

THIRDOYOUNGEST ASSEMBLYMAN

Douglas Anderson Of This District 26
Years Of Age

Douglas Anderson, assemblyman-
elect from this district, will be third
youngest member of the Wisconsin le-
gisature. He is twenty-six years of
age.

The next Wisconsin legislature will
be notable for the number of young
men in its membership. There are a
half dozen new members under thirty
years of age. Assemblyman Jen-
nings, elected in a rich Milwaukee
district, is only 23. Archie McCom-
it of Green Bay is about 25; Fred L.
Holmes of Madison is 29, and the Rev.
A. E. Friedrich of Kendall, known as
the "fighting parson" of Monroe coun-
ty, is about 30. In the state senate
George B. Skogmo of River Falls
and Edward W. Ackley of Chippewa
Falls are young men of about 30
years each.

NEW BANK GETS PERMIT
State Commissioner of Banking
Knott has issued a certificate author-
izing the State Bank of Three
Lakes, capital \$10,000. C. K. Kuey
is president and J. P. Parrette, cash-
ier. With the opening of this bank
Oneida county now has four banks.

Mrs. Nelson, who spent the last
two weeks here in the interests of
the Fraternal Brotherhood lodge, re-
turned to Milwaukee last night.

M. W. A. 30 YEARS OLD

World's Largest Fraternal Society
Celebrates Birth Jan. 5

It is probable that the members of
Lake Camp 1749 M. W. A. of this
city will follow the plan of other
camps of the order throughout the
country and celebrate the society's
thirtieth anniversary next Jan. 5.

The first local camp or lodge of
the M. W. A. was organized on Jan-
uary 5, 1883, at Lyons, now a part
of Clinton, Iowa, with 21 charter
members. This camp which is named
"Pioneer Camp No. 1" is still in
existence with 351 members.

The latest membership statement
issued by the society shows that it
has a beneficial membership of 1,
035,029 and a social or uninsured
membership of 24,510. The beneficial
members carry insurance aggregat-
ing \$1,650,937,500 and these members
are affiliated with over 15,000 loca-
camps, scattered throughout the
United States and Canada.

To date the society has paid the
enormous total of \$115,813,855.56 in
benefits to the beneficiaries of 65,
468 deceased members, an average
payment of \$1,761 for each claim al-
lowed.

In many of the local camps his
celebrations in commemoration of
the society's birthday will be held
and it is expected that the Rhinelan-
der Woodmen will not be outdone
in this respect.

HAMMEL MAKES PROMISES

Hopes To Pay Depositors 100 Cents
On Dollar Some Day

W. F. Hammel, of the defunct
Gladstone bank, says that if he
is ever able he will pay 100 cents or
the dollar to the depositors who lost
money through the failure of his
bank. It is alleged that the downfall
of the institution was due to misman-
agement and high living of the Ham-
mels.

In a recent interview in the Mar-
quette Eagle-Star W. F. Hammel is
quoted as follows:

"At this time even, a kind look or
a few words that are not given mal-
iciously are a boon to me. God knows
that I have tried my best to avoid
this bank failure and before giving
up resorted to every means in my
power to protect the people that
have expressed their confidence in me
during the years that I have been
in Gladstone. Now I want to get
those proceedings thru with as soon
as possible and go out in the world
and regain that money that I have
lost and when I get it, sooner or
later, my friends are not going to
be forgotten. I am a young man and
have ample time to regain my foot-
hold among my fellow men and will
pay 100 cents on the dollar to all
my creditors."

WIGDERSON IN FIGHT

Joe Wigderston, who for a short
time was engaged in the mercantile
business in Rhinelander, and Wil-
liam Wolpert, another prominent An-
tigo business man, had a fistie en-
counter in a barber shop in that city
one day last week. The trouble is
said to have arose over Mr. Wigder-
son "knocking" Mr. Wolpert while
the latter was seated in a barber
chair. Mr. Wolpert, it is reported
stood the abuse as long as he could
then arose suddenly from the chair
and handled Mr. Wigderston very
roughly. The Antigo papers devoted
space to the mix-up and headed one
of the articles "Prize Fight In Bar-
ber Shop."

RETURNS TO MARINETTE

Mr. and Mrs. Patrick Darragh and
daughter, Miss Jeanie Darragh are
expected soon from Owen Sound
Ont., and will again make their per-
manent home at Marinette, states the
Eagle-Star. Mr. Darragh has been
with the Carper Lumber Company for
many years and since the destruction
of the mill by fire at Owen Sound
the company has been finishing its
sawing at Perry's Sound. The Dar-
rags will not rebuild at Owen Sound.
The return of Mr. Darragh and fam-
ily will be welcomed by a wide cir-
cle of friends.

FARMER IS SHOT WHILE HUNTING

Cornelius Van Ostercut Of Har-
rison Meets Tragic Death
Sunday

From the town of Harrison in Lin-
coln county, just across the bound-
ary line of Oneida county, comes the re-
port of a fatal hunting accident.
Cornelius VanOstercut was shot while
hunting a short distance from his
home. The accident occurred Sunday
morning. It was difficult to learn
the details of the case. It is said that he
was about twelve hours after the inflic-
tion of the wound.

Mr. Van Ostercut was twenty-five
years of age and was a well known
young man in that vicinity. He had
a number of friends in Rhinelander.

CLOSE BIG SALE OF TIMBER LAND

Mason-Donaldson Co. Sell Over
10,000 Acres To Montgom-
ery Ward & Co.

One of the largest timber deals ever
recorded in this part of the state
was consummated this week when the
Mason-Donaldson Lumber company of
this city disposed to Montgomery
Ward & Company of Chicago over
ten thousand acres of heavily timbered
land. The tract is located just
north of State Line in 44-39. The
sale had been in negotiation for sev-
eral weeks.

It is probable that Montgomery Ward
& Company will log this timber and
ship it to Rhinelander to be sawed.
If this is done it may be the means
of the firm establishing a large box
manufacturing plant in this city.

WUBKER-NICHOLS

Young People Are Married Here Tues-
day Morning

Miss Marie Wubker of McNaugh-
ton and Leon Nichols of this city
were married Tuesday morning at
7 o'clock at St. Mary's church. Rev.
Father Broom performed the cere-
mony. Miss Mary Malz was brides-
maid and Harold Nichols, brother of
the groom, best man. After the wed-
ding the party went to the home of
the groom's father, Charles Nichols,
where breakfast was served. Mr.
and Mrs. Nichols departed on the
10:26 Northwestern train Tuesday
morning on a trip to Wausau, Milwau-
kee and Chicago.

The bride is the daughter of Mr.
and Mrs. Henry Wubker and has a
large acquaintance in this city. She
is a well esteemed young lady.
Mr. Nichols has spent practically all
his life in Rhinelander and is an ex-
cellent young man. Upon their
return to this city the young couple
will reside on the south side. Con-
gratulations are in order.

OPENS SHOP AGAIN

C. E. Slusser, the taxidermist, has
again opened his shop on Conro St.
and is prepared for all orders in his
line. Mr. Slusser mounts all kinds of
birds, animals and fish and his
work is first class. Many of his
mountings are on display in differ-
ent business places in this city.
There are few taxidermists who
can equal him in mounting deer
heads, all of such heads being strik-
ingly true to life. Mr. Slusser looks
for a good business during the com-
ing winter.

ON ANNUAL HUNT

The following Rhinelander gentle-
men are near Conover on their an-
nual deer hunt: A. W. Brown, Wal-
ter Brown, Webb Brown, Archie Sier-
wright, Frank Kretlow, Alex. McRae
and M. H. Raymond. It is un-
derstood that S. B. Gary sent the par-
ty a quarter of beef yesterday to
prevent them from getting hungry.

HE'S MARRIED NOW

John Gilligan Takes Miss Grace Davis
For His Bride

Mr. and Mrs. John Gilligan arriv-
ed in this city Monday from their
wedding trip to Milwaukee, Chicago
and Antigo. Mrs. Gilligan was for-
merly Miss Grace Davis and she be-
came the bride of Mr. Gilligan in
Milwaukee, Monday, November 4. The
wedding was a quiet one. After spend-
ing a week in the above mentioned
cities the young people returned to
Rhinelander and will reside at 122
East Anderson street where the
groom has prepared a comfortable
home. In observance of the newly-
weds' arrival their friends literally
covered the front of their house with
amusing posters, cards and etc., ap-
propriate to the occasion.

The bride is a graduate of the
Rhinelander high school and spent
several years in this city with Mr.
and Mrs. A. J. Lytle. She is an ac-
complished young lady and possessed
of all the good qualifications required
for a kind and loving helpmate.
She has many friends here.

Mr. Gilligan is the son of Mr. and
Mrs. W. H. Gilligan Sr., old residents
of Rhinelander. Since the inaugura-
tion of the free mail delivery service
in this city he has served as car-
rier. He is a highly esteemed young
man and popular among his host of
friends. That he and his wife may
have a happy journey through life is
the earnest wish of all who know
them.

LARGE AUDIENCE HEAR GILLILAN

Famous Humorist and Poet
Lectures In This City
Last Evening

Strickland W. Gillilan, noted hu-
morist, poet and magazine writer, en-
tertained a large and appreciative
audience at the Grand Opera House
last night with his lecture "Sun-
shine and Awkwardness". Mr. Gilli-
lan appeared here as the second
number of the Rhinelander Entertain-
ment course.

Mr. Gillilan's entire evening was de-
voted to the recital of poems written
by himself. To the casual ob-
server many of his recitations may
have seemed nonsensical, but all
taught their great lessons in life. He
demonstrated his power at humor and
pathos by various selections, passing
from one to the other.

Mr. Gillilan's physique and facial
expressions were such as to add much
to his ability as an elocutionist.

The two numbers of the entertain-
ment course already given have been
of exceptional merit and if the other
numbers to follow are as good the
success of the course is assured.
The citizens of Rhinelander should
appreciate the efforts of the commit-
tee in charge by patronizing all the
numbers.

THE PARCELS POST

The postmaster general wishes to
call especial attention to the follow-
ing features of the parcels post regu-
lations.

1. That distinctive parcels post
stamps must be used on all fourth-
class matter mailed, beginning Jan-
uary 1, 1913, and that such matter
bearing ordinary postage stamps will
be treated as "held for postage mat-
ter."

2. That parcels will be mailable only
at post-offices, branch postoffices
letter stations and such numbered sta-
tions as may be designated by the
postmaster.

3. That all parcels must bear the
return card of the sender; otherwise
they will not be accepted for mail.
The parcels post stamps referred to
in the first paragraph are to be is-
sued shortly before January 1, 1913.

EVENTS OF WEEK IN OTHER TOWNS

Items Of More Or Less Importance Boiled Down From Neighboring Exchanges

Ironwood—

Joseph Bando, an Austrian board ing housekeeper at Jessleville, announced his engagement to his housekeeper, collected all the wedding presents he could, borrowed a lot of money for the nuptial celebration worked his bride for \$100, collected nearly \$500 from his boarders, and skipped on the day of the wedding. He went to Newcastle, Pa., with about \$1500 which did not belong to him and left a number of unpaid bills. He was brought back to this city by Sheriff Rowett.

Marquette—

One of the two women running for the office of register of deeds in Wisconsin was elected and one defeated. Miss Margaret Welsh of Oconto was defeated by John Wesner Jr., republican, by a majority of 1500 while Miss Adeline B. Pratt of Marquette was re-elected by a majority of 1,136 over A. A. Diamond, republican. Miss Pratt secured her office only after a long legal fight with

Emery Galigne who opposed her in the primaries.

Park Falls—

Rumors have been circulated of late that the Omaha railway company intend to extend their line to this city in the spring, but nothing definite has as yet been learned as to whether there was any foundation for the rumors or not. It is certain however, that the road will eventually come in as it is understood that the right of way has been purchased and all that now remains is the actual construction of the road.

Barron—

Burglars broke into the postoffice in this city Thursday night and secured eighteen dollars in stamps and two dollars in pennies which were not in the safe. They drilled the safe door but did not blow the safe.

Stevens Point—

At a meeting of the council it was voted to issue \$45,000 bonds to be used for a new ward school and an addition to the high school.

Manawa—

August Chappis of this village devoted two acres of ground to a potato raising experiment. On one acre of the plot he used 750 pounds of Commercial fertilizer, and dug 560 bushels of potatoes, and on one-half of the remainder he dug 221 bushels, having used but 250 pounds of fertilizer. The remaining half acre of the plot unfertilized, produced 172½ bushels.

Ladysmith—

The Rusk County Rural Telephone Co., finding its present rates too low has made application to the Wisconsin

Railroad Commission for authority to increase its rates to an amount that will give reasonable returns on the money invested. Instead of a deficit, as in the past year. The Railroad Commission will hold a hearing at Madison, November 25, to consider the application.

Stevens Point—

The Central Fuel Oil company has gone into bankruptcy. This is the company that bought the interests of all the stockholders of the Stevens Point Oil company, and two or three other companies in which residents of this county were interested. The amount paid for the stock in the Stevens Point company was \$320,000, one-fourth of the price of the stock being paid in stock of the Central Fuel Oil Co. This amounted to \$80,000, of which, it is believed, former owners of Stevens Point Oil company's stock will lose.

Gladstone—

One of the old time election bets was paid off in full when August Lillquist gave Otto Mertz a ride in a wheel barrow Saturday afternoon. A large crowd witnessed the comic performance. Otto Mertz is no light weight, and Lillquist will touch for this statement. To the tune of a bass drum Lillquist wheeled Mertz several blocks down Delta Avenue.

Grandon—

The County Board has caused the withholding of the sheriff's pay until such time as that official returns to the county jail Sam Sturdevant, the Chippewa Indian, who gave undersheriff Daskam the slip two weeks ago.

Marquette—

Carl Nelson, 20 years old, engineer at the city water plant of Menominee Mich., and George Fehrbach, 21 years old, laborer, also of Menominee were perhaps drowned on Sunday, while hunting ducks near Jutiner's Point, two miles north of Menominee on Green Bay. When the boys did not return Sunday night a search was commenced. Articles which the boys had used in hunting were found floating Monday morning, and the bay is being dragged for the bodies. The canoe has not been found.

NORTH GRANDON

Many deer hunters are busy in this neck of the woods.

Game Warden Russell of Wabeno is on duty in this vicinity this week.

Mr. and Mrs. W. Schultz Sr were at Clintonville this week attending the wedding of a relative.

Mr. and Mrs. O. F. Merkela of Laona were visitors at the Raymond home this week.

Stella Zinker was taken to the state home for the feeble minded at Chippewa Falls, Friday. She is the adopted daughter of Mr. and Mrs. J. Anderson.

Mrs. Bert Garlock and Mrs. John F. Peterson were at Park Falls during the week visiting Mr. and Mrs. Herman Weise.

North Grandon wants new settlers. Splendid opportunities for home seekers here.

FLASHES FROM THE HEADLIGHT

Bits of News Pertaining To The Soo and Northwestern Railroads

Of 2, 350,000 freight cars in the country, about 7 per cent are in the shops for repairs on an average at all times. The average earnings of a car are about \$250 per day. The daily loss of earnings is therefore about \$500,000 in times of business activity and car shortage.

For some unknown reason a farmer attempted to drive across a railroad bridge at Trenary. The horse missed its footing and slipped, falling with its legs between the ties. The Soo line train was compelled to halt until the animal could be cut releasing the train, and consequently the train was an hour late in its arrival here.—Gladstone Reporter.

The Interstate commerce commission has taken up the question of the shortage of freight cars. A few weeks ago the railway companies sent out the distress signal, stating that it was almost impossible to get freight cars. The Northwestern railway claims that it cannot get refrigerator cars to move the potato crop. Many of the roads claim that they cannot get cars to handle the coal and a coal famine is predicted.

Railroad men here are interested in steps taken by the American Railway association to have enacted legislation that will compel every railway corporation operating in the United States to replace wooden passenger coaches with steel coaches.

It has been suggested that all railroad companies be required to replace their wooden coaches between June 1, 1915 and Jan. 1, 1916. This would give them two and one-half years in which to make the change. It is expected that the proposed legislation will be enacted before June 1, 1915, so that in reality the companies would have more than three years' time in which to have their steel cars constructed.

The Northwestern railway company has just announced that they will tear down their No. 1 ore dock at Ashland and build a new one during the coming winter. This will greatly increase the company's facilities for handling ore in that vicinity. It will cost several hundred thousand dollars to do this work and scores of men will be employed.

The Michigan railroad commission Friday ordered the Minneapolis, St. Paul and Sault Ste. Marie railroad, which operates in the upper peninsula of Michigan to reduce its passenger rate to 2 cents a mile. That company's annual report showed that the road earned more than \$1200 per mile on passenger business last year. Under the Michigan law, this rate of earning makes 2 cent fares compulsory.

While the annual number of deaths on our American railroads is appalling it would be unfair to charge them all against the roads. The truth is a very large proportion of many of such deaths is that of tramps, who trespass on the tracks and there by endanger their lives. The best plan to prevent such a slaughter is to follow the European plan of prohibiting trespassing and to see that trespassers are punished. Of course it is hard to enforce such a law in a country so vast as this, and especially in places remote from cities or large towns but it can be done to a much greater extent than it is now.

PRESCRIPTION

For a Long Life.

This is the prescription for a long life given by an old gentleman in Connecticut, who is ninety-nine years old and still well and cheerful. "Live temperately, be slow to anger, don't worry, take plenty of exercise in the fresh air, and, above all, keep cheerful."

Should the system get run down—digestive organs weak—the blood thin and sluggish, take Vinol, which is a delicious combination of the medicine—body-building properties of cod's livers, with the useless grease eliminated and tonic iron added. We regard Vinol as one of the greatest body-builders and strength-creators in the world for aged people.

Mrs. Mary Ivey, of Columbus, Ga., says: "If people only knew the good Vinol does old people, you would be unable to supply the demand; it is the finest tonic and strength-creator I ever used."

We wish every feeble old person in this vicinity would try Vinol on our agreement to return their money if it fails to give satisfaction. P. S. If you have any skin trouble try S. S. S. We guarantee it.

Remarkable Success of These Talented Physicians in the Treatment of Chronic Diseases

OFFER THEIR SERVICES FREE OF CHARGE

The United Doctors, licensed by the State of Wisconsin for the treatment of deformities and all nervous and chronic diseases of men, women and children, offer to all who call on this visit, consultation, examination and advice free, making no charge whatever except the actual cost of treatment for the purpose of proving that they have at last discovered a system and method of treatment that are reasonably sure and certain in their results.

These Doctors are among America's leading stomach and nerve specialists, and are experts in the treatment of chronic diseases of the blood, liver, stomach, intestines, skin, nerves, heart, spleen, kidneys or bladder, rheumatism, sciatica, diabetes, bed-wetting, leg ulcers, weak lungs, and those afflicted with long standing, deep seated chronic diseases, that have baffled the skill of other physicians, should not fail to call.

According to their system no more operations for appendicitis, gall stones, tumors, goiter, piles, etc. By their method piles uncomplicated are cured without operation or hypodermic injection in cases accepted for treatment. They were among the first in America to earn the name of "Bloodless Surgeons," by doing away with the knife, with blood and with pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder troubles bring a two ounce bottle of your urine for chemical analysis and microscopic examination.

Deafness has often been cured in sixty days.

Wornout and rundown men or women, no matter what your ailment may be, no matter what you have been told, or the experience you have had with other physicians, settle it forever in your mind. If your case is incurable they will tell you so. Consult them upon this visit. It costs you nothing.

Remember this free offer is for this visit only.

Married ladies must come with their husbands and minors with their parents.

Comparative digestibility of food made with different baking powders.

An equal quantity of bread (biscuit) was made with each of two kinds of baking powder—cream of tartar and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

99 Per Cent. Digested

Bread made with alum powder:

67 Per Cent. Digested

Royal Baking Powder raised food is shown to be of greatly superior digestibility and healthfulness.

The boy's appetite is often the source of amazement. If you would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by All Dealers.

Barney McCarey, a former Northwestern passenger conductor, has returned to Antigo from northwestern Canada where he has been in charge of a construction train for the Canadian Northern railway. Owing to cold weather the work has been suspended for the winter months.

D. S. Johnson, a former prominent citizen and newspaper man of Rhinelander, was in the city Tuesday renewing old acquaintances. He was deer hunting in this county and bagged the one deer allowed him by law. Mr. Johnson, who is familiarly known as "Ole" established the Herald in this city and is now publisher of the Red Granite Herald.

LUMBER SHIPMENTS GOOD

Of the lumber situation in this district the Mississippi Valley Lumber man says the following:

"Not much change is to be reported upon market conditions throughout Wisconsin and northern Michigan. Manufacturers are continuing to ship lumber at good prices as fast as their stocks are dry enough. Preparations are now being made to put in this winter's supply of logs, and unless more labor can be secured, the input will be less than last year. No. 3 hemlock is very scarce, while there seems to be no rock elm bridge plank whatever in the yards. Altogether, the manufacturers in this territory are very much pleased with the way things are going, and aren't worrying about market conditions at present."

International Spécial Molasses Feed

AN OPEN LETTER TO DAIRYMEN.

What is the cheapest feed you can buy this season? That is the question that is interesting every dairyman right now. Corn promises to be cheap and oats are selling at very low prices. Ground corn and oats will make you a cheap feed as far as cost per ton is concerned. If you could buy a feed for mixing with ground corn and oats that would cost you about the same as corn and oats and that would increase your milk production at least \$20 per month on each twenty head of cows, you would increase your profits \$200.00 a year if milking twenty cows per month. If milking forty cows you would increase your profits \$400.00 per year.

Handy for dairymen in using International Spécial Molasses Feed mixed in equal parts by weight with corn and oats and are reporting to us that their cows have increased from one to three quarts per day in their milk production. International Spécial Molasses Feed is far superior to ordinary mill feeds as a milk producer and conditioner.

Just from our own analysis of 14 quarts per day on each cow means for YOU, it means 240 gallons more per month from a herd of twenty cows. It means twelve gallons more per month from each cow. In order to get this result all you need to do is feed one-half International Spécial Molasses Feed and one-half corn and oats in the place of straight corn and oats. The increased milk production thus obtained makes the International Spécial Molasses Feed worth at least \$25.00 more per ton than ground corn and oats. It will cost you only \$15.00 to \$18.00 per ton more.

Latest State bulletins give the following reports on their analysis of International Spécial Molasses Feed: State of Pennsylvania, protein 14.49; fat 1.74. State of New Jersey, protein, 14.52; fat 1.62. State of New York, protein 15.18; fat 1.83. This compares with an average analysis of less than 10% protein for ground corn and oats. For each ton of International Spécial Molasses Feed that you will buy and use along with ground corn and oats you will make an extra profit of \$25.00 over and above all extra cost. We sell and recommend the INTERNATIONAL SPECIAL MOLASSES FEED. We are headquarters for everything in our line.

Theodore Roosevelt by latest official and unofficial returns was 45 votes ahead of Woodrow Wilson in California's vote for president late last night.

President elect Wilson while avoiding discussion of an extra session, last night took occasion to declare with emphasis that he proposed to carry out the pledges made in his campaign speeches with regard to the tariff and monopolies. The governor was speaking of his mail when he made this statement.

That 4,014 students are registered in classes in the university for the first semester is shown by the new directory now in press. The enrollment is fifty-eight larger than that of last year at this time. It indicates that the total number of students this year will exceed 6,000. The college of agriculture shows the largest gain with 802 students this year as compared with 703 last fall.

DEMOCRATS SORRY FLIGHT

The Democrats of Wisconsin occupy a most unenviable position. They have been defeated throughout the state. Having offered their strength to the service of Tory Republicans, having protested against everything which the Reactionaries of the state have opposed, the Democrats have discovered that all the Tory Republican votes they can ever hope for will not be enough to bring them victory. It is a just punishment for surrendering Democracy.

Once and for all has it been shown that Wisconsin does not propose to go back—will not go back—on the substantial gains of the last decade. The evidence that an attempt to gain power by uniting all the backward-looking voters of the state must fail is final. But this does not prove that there is no place in Wisconsin for the Democratic party. On the contrary, the defeat should be a beacon to indicate the path which Democracy must take, if it is again to serve the people. All political history has shown that two parties are a necessity to good government.

OFFICIAL ELECTION RETURNS

The official returns increase Governor McGovern's majority in this county from 329 to 407; they increase W. W. Carr's majority over S. H. Ashton to 472; they decrease Cain's majority to 24 and increase Asmundson's majority to 202; Senator Stevens has the largest majority in the county 879 and E. C. Sturdevant follows with 573. Woman's suffrage was defeated in this county by 182 for 562 against 1950.

Last week was the first time the New North ever succeeded in getting returns from every precinct and all were practically correct. However this was at an expense of over five dollars to get returns from one small precinct.

Marquis Betts, the candidate of the News for Assembly, received 46 votes in Oneida county instead of 43 as reported in the New North table of last week. Save your New North of last week for future political comparison.

McGOVERN LEADS BY 8,502

Complete returns of the vote for governor Monday gave a large boost to the previously reported majority of Gov. McGovern over Karel. According to the reports of the figures received by the Free Press the count now stands: McGovern 161,031 Karel 152,529

McGovern's majority 8,502

McGOVERN ON LA FOLLETTE

Denouncing Senator LaFollette's attitude toward him in the recent campaign; claiming that the senators' charges, although baseless, furnished the Democrats with campaign material against him and promising further battle, Gov. McGovern Monday declared his 8,500 plurality a splendid endorsement of his administration. He says that under the conditions this endorsement is far better than an 80,000 plurality in other years. His statement on the election follows:

Deplores LaFollette Action

Throughout the campaign, Senator LaFollette, while commending all my official acts, daily made charges against me of disloyalty at the Chicago convention and of the betrayal of his candidacy for the presidency. These misconceived charges and malicious insinuations based upon them, were reiterated again and again in the columns of a hostile press and Democratic poster and from the platform at Democratic meetings. It is to be deplored that the senator pursued this course, as there was no excuse or justification for it.

"That there is no truth whatever in the accusations he made, is well known to most people who attended the Chicago convention and will be plainly shown to all at the proper time.

"Upon public grounds, I deeply regret that I am forced to repel these attacks or that there should be any controversy whatever between Senator LaFollette and myself; but I can not remain silent in the face of the charges he has made against me.

"The Wilson landslide has remade the political map of the country, in state as well as in national affairs. Among the Republican states in the middle west swept by it, Wisconsin and Iowa alone survive.

"So far as I know, Wisconsin will be the only state with a Progressive Republican administration after Jan. 1.

Sees Splendid Endorsement

"In view of a nation wide political reversal so complete as this, and all the other untoward factors that entered into the election here, not one of which is traceable to this administration, our plurality of 8,000 is a better endorsement than 80,000 in an ordinary year.

"The outcome demonstrated the firm hold the Progressive movement has upon the voters of Wisconsin.

"The time was bound to come when it would emerge from its initial stage to meet the challenge to justify itself by results.

"Under most adverse circumstances for which it was in no way responsible, this has now been done.

"I am glad the test came when it did; and I esteem it a very high honor indeed again to be called by the people of Wisconsin to assist in continuing the good work.

"Not because of any difference of opinion, concerning the record of this administration therefore, but as a result of a veritable political upheaval in the nation, the campaign just ended was a close, hard fight. Upon our side, it was a contest for principle. Hundreds of public spirited men in every community, regardless of party, bore the brunt of the battle.

"To them and to all who by their votes contributed to the success of our cause, I wish to express my sincere thanks and appreciation."

LA FOLLETTE'S VALUABLE AID

McGovern endangered the success of the state ticket by coming out for Roosevelt. In that case his fearlessness amounted almost to recklessness. Had the ticket been defeated he would have had himself to blame for it. If it pulls through with 5,000 majority he will have Senator LaFollette to thank for it. The small vote for Roosevelt, the election of a Republican legislature, the fact that the republican ticket pulled through in spite of the heavy plurality given the Democratic national ticket, show that the people of Wisconsin still love and have the greatest confidence in Senator LaFollette.—Beloit News, Progressive Rep.

LEADER OF PARTY

Politicians who a week ago were saying that Senator LaFollette, Wisconsin Progressive, had ceased to be a factor in national party councils, because of his refusal to declare for either Taft, Roosevelt or Wilson, admit today that the Badger Senator is likely to be the leader of the Republican party. The old Tory crowd is off the stage. LaFollette has remained Regular Republican but no hint of Toryism can attach to him, it is observed, and the Republican minority in the senate is likely to follow his leadership. If the old party is to be rejuvenated as a thoroughly Progressive organization, LaFollette will be its spokesman and possibly its next presidential offering.

Peanut crisp day look it up.

OUR ENORMOUS WATER WASTE

As will be seen by the council proceedings of last week the council upon recommendation of the board of public works has discontinued the use of electric current for pumping purposes. This was carried by a unanimous vote. It means that about seven years ago through every form of persuasion this city was induced to put in electric pumps at a cost of over eight thousand dollars for pumping the city water and now the whole investment for machinery and repairs is of little value to the city. Fourteen dollars per-day would be expensive for pumping city water. We are also told the seven dollars per day for the use of tamarack wood may be reduced considerably by the use of a good grade of maple and this still reduced by the use of coal.

If the report of the consulting engineer, Mr. L. A. DeGuere, means anything at all, it means that there is an enormous waste in water that there has been much loss in efficiency in electric service, although under the flat rate up to the present time, the city has not been seriously affected by it and that we now have a waste of eight thousand dollars upon our hands. More, we feel Mr. DeGuere's report would bring any sound minded business man to the realization that we should have a competent mechanic at the head of our water works department to give his whole time to it and to know what is going on and remedy the leakage. We feel that a most careful investigation should be made as to the cost of running the city water works and every waste stopped and we feel the only possible way to do this is to put a first-class mechanic or engineer at the head to oversee and control it and reduce expenses at every point possible in the running.

Although we have spent thousands of dollars on our water works and sewerage systems we have not even a map showing conditions. This whole waterworks and sewerage question is extremely sick and needs a doctor and needs treatment at once and it must be vigorous treatment. It is impossible for one man to do in a casual way the full work of a skilled engineer and mechanic. It is too much to ask of the man. The waste incurred by this method is too great for the city.

HOW THEIR BOOSTING BOOSTS

M. A. Betts of Wabeno, was in the city this week, making friends and votes in a canvass of the city. He is going to run for the assembly on an independent ticket, his platform including the repeal of the Income tax law, the Mary Ann law, revision of the primary election law, and opposition to any destructive water power bill. Mr. Betts has struck a popular ideal and he found many men here who promise him their votes. He will get a large support as he pledges to work and vote for the repeal of the State Income tax and other objectionable laws.—Rhineland News, Sept. 27.

In Oneida county Mr. Betts got 46 votes against 1130 for Anderson and 503 for Masbaum, in Florence county 11 as against 418 for Anderson and 100 for Masbaum, in Forest county, the home of all three candidates, Betts got 70, Anderson 683 and Masbaum 455 or from a total vote of 3416 Betts got 127, Anderson 2231 and Masbaum 1058. Anderson's plurality is 1173. It seems to be an awful blow to a candidate to have the loyal support of the special interest organ over the way.

F. A. Lowell, county superintendent visited schools in the southern part of the county this week. He has now inspected every school in the county.

Case of Ingratitude. When Lord B— died a person met an old man who was one of his most intimate friends. He was pale, confused, awe-stricken. Every one was trying to console him, but in vain. "His loss," he exclaimed, "does not affect me so much as his horrible ingratitude. Would you believe it? He died without leaving me anything in his will—I, who have dined with him at his own house three times a week for 30 years!"—Life.

All the Qualifications.

Among a large number of amusing letters received by David Belasco was the following: "Venerated Sir—Wishing to go on the stage, would like to join your forces. Have been a bricklayer for five years, but having failed in this branch, have decided to take up acting, the same being easier work. I am not young, but six feet in my stocking feet, have studied elocution and am fond of late hours."—Everybody's Magazine.

Sad Sequel to Wedding.

A London in which a newly married couple, the chief bridesmaid, and the "best man" were driving from church as knocked over by an electric trolley in Lille, near Paris, the other morning. The coachman had his legs broken, the bride, a girl of twenty-one, broke her right arm and was badly hurt in the head, her husband escaped without a scratch, and the bridesmaid and "best man" received internal injuries.

National Characteristic.

A national characteristic of the French people is their habit of family exclusiveness. It is very rarely that a family divides for a holiday. For one thing, middle-class people in France do not pay visits except to members of their own family, and for another, a French mother likes to keep her children under her own eyes as much as possible, both before and after marriage.

Hard Lot of Hindu Women.

According to reliable statistics, barely one of one per cent. of the 144,000,000 of women in India are able to read and write; and to none of the hundreds of thousands of Hindu gods may these sorrowful little dark women look for any ray of hope, either in this world or in the world to come.

To Remove Paint From Linoleum.

To remove the spots of white paint from linoleum, keep them saturated with turpentine until they soften, or if they are very old and hard, use equal parts of turpentine and ammonia. They will soon soften and easily rub off, then wash with warm water and use a little soap, then rinse and wipe dry.

Accident Policies.

Murphy—"Thin 'tis a liberal policy the smooth-jawed young man sold yer" Casey—"Yis. Share, there are some vry attractive indemnities if I git hurt playin' golf, polo, or drivin' me own aeroplane."—Puck.

Are You Contemplating On Buying Any Articles In Furniture Or Rugs?

There are reasons why we so frankly ask this question: Mainly because we have a full line of House Furnishings to sell and to do so we are giving values that are convincing arguments of price and quality.

We have just received a sample line of Rugs from one of the country's biggest Rug Houses. You should compare these values, they readily prove themselves money savers--in Axminsters, Brussels, Wilton Velvets, Korazan and Tapestries.

We have three special priced Davenportes in the Nufold Beds, \$29.00, \$30.00 and \$41.00.

LIBRARY TABLES in solid quarter sawed oak, colonial, regular or mission, priced at \$6.50, \$9.50, \$11.50, \$16.50, \$19.50.

BUFFETS in solid oak, our stock of Buffets show to advantage compared with price saving quality. We unhesitatingly stand back of our "word," your money back, if goods are not as good as represented. Prices \$15.50, \$18.50 \$25.00, \$27.50 and \$30.

Next week we plan on giving you an opportunity to buy one of the best equipped and most complete Kitchen Cabinets made. Watch for our ad and see if we are not correct.

We are here to give you service and as you get to know us you will find "Make Good" is our motto.

Gary & Danielson

MONICO WILL BE CATTLE CENTER

Joe Kurtz Of That Village Purchases Many High Grade Guernseys

It looks now as if Joe Kurtz of Monico was destined to be the leading Guernsey man of the county. Last summer he brought into the county a high bred Guernsey sire that took first premium in its class at the county fair. Just recently Mr Kurtz has brought into the county four high grade Guernsey cows and this week will bring in another. He will try pretty soon to secure a good pure bred Guernsey heifer or cow. Mr. Kurtz's Guernsey sire is descended from such ancestors as Masher's Sequel, a sire that has over forty daughters in the Advance Registry, Island Champion, winner of the Queen's prize and three times champion of the Island of Guernsey, and Glenwood's Stranford's and Lohan of Richmond, a cow that sold for \$1000. Stranford's Princess, a cow that in one year gave 12000 pounds of milk from which over 700 pounds of butter fat were secured. This is certainly a fine start for a splendid herd. Mr. Kurtz is putting his farm in good shape too. This fall he built a good chicken coop according to plans drawn by College of Agriculture and will also improve his barn. That's the way. Watch Onelda grow into one of the leading dairy counties of the state.

Monico, Onelda county, is sure to become one of the leading cattle centers of the county. Last summer community breeders' association was formed at Monico which resulted in Mr Kurtz's securing his pure bred sire. The other members of the association are John Meyers, chairman of the town of Monico, J. L. Terrio, F. C. Kuehn, and Jacob Lajon. Mr. Kuehn has a Guernsey heifer and the other men will get into the Guernsey business as fast as possible.

Potato digging is done. The heavy outdoor work of the fall is about completed. Now is the time to commence to think and study and plan upon the work for next summer. The County Representative is ready to meet farmers and people of communities at meetings which may be held either day times or evenings. Remember that it is not necessary to wait until a big crowd can be got out. Little meetings at school houses, town halls or private houses are very good times to do a lot of agricultural work. The County Representative would rather meet a few people who are there for business than to talk to a big audience where a dance or some other entertainment is to follow. So if any farmer can get a few people to gether who are interested in the same thing, the County Representative will be glad to meet with them. Now let's have a lot of meetings and talk about such things as dairy cattle, silos, alfalfa, corn, potatoes, cabbage rations and so on. Any one who will assist in getting together some of the people of his community ought to write in and we will try to locate a date for a meeting.

The County Representative now has on hand about 2000 milk sheets. Any farmer who is interested in weighing the milk from his cows and keeping track of his cows to see whether they are paying or not can secure milk sheets for nothing from the County Representative.

The County Representative can tell any one who desires to secure a good boar where to find one. These are Duroc-Jersey boars and the Duroc-Jerseys are splendid swine. These boars are pure bred. The Duroc-Jerseys are hardy hogs and produce large litters of pigs. Now is a good opportunity to secure some good stock in hogs. The hogs spoken of are in Onelda county and handy to get.

Are the farmers and the boys keeping in mind the Short Course for boys which will begin in January. Work with cattle and horses. Hogs, sheep will be the leading feature this year. This is very interesting work and should be taken advantage of by all who can do so.

MARRY IN THIS CITY

Miss Nettie Strand and Ole Walberg, both of Iola, Waupaca county, were united in marriage by Rev. Snarremo at the Norwegian Lutheran parsonage, this city, Wednesday of last week. The young couple will make Iola their home.

The New North gives the cheapest price of any firm in the city on engraved visiting cards, engraved announcements or invitations.

RIFLES POP LIKE BATTLE

Ross Sweet, stage driver on the route between this city and Robbins says that deer hunters are so numerous in the woods along the road that the popping of rifles resemble the noise of a skirmish in war time. Mr. Sweet also states that frequently the bullets come singing dangerously close to the heads of people walking or driving along the road, a condition which is not relished. The careless hunter, seems to have no regard whatever for a human life and evidently believes that if he can't kill a deer, he will get a man.

GOVERNOR DEER HUNTING

WILL MEET AGAIN

Billy Perkins has evidently changed his mind since announcing two weeks ago, that he would retire from the prize ring as Paddy Lanzer, the Hurley promoter, has arranged for a bout between Perkins and Art Godfrey on Thanksgiving evening. The bout will be staged at Hurley. Perkins and Godfrey went a ten round draw in this city early in the fall. Since that time Perkins has had a draw with Jack Parres and Godfrey has been defeated by Cyclone Johnny Thompson. Both have also had several minor matches.

GUESTS OF SOO LINE

Agents Are Being Entertained Royally
In Minneapolis

The agents at the larger cities on the Soo line are in Minneapolis guests of the company. E. J. Slossen is present from Rhineland. An elaborate program in the way of entertaining the agents has been arranged. They will make their headquarters at the Hotel Radisson while in the city. At a banquet the agents will exchange ideas as to conducting stations, methods of securing business and "talk shop" in general. Head officials of the road, including President Pennington, will be present and make addresses.

This is the first time that the Soo company has entertained its agents in this manner. The program began this morning and will continue until Friday night.

BROWNE WINS BY 5,500

State Senator E. E. Browne of this city received a splendid endorsement in every one of the six counties in the Eighth congressional district and his is the honor of being the first resident of Waupaca county to represent his district in the national House of Representatives at Washington, D. C.

Waupaca county leads in giving Mr. Browne his splendid plurality and will show fully 2,400 majority for its home candidate. Waushara county follows with 1700 plurality while Shawano county, which in the early stages of the campaign was considered fighting territory, will show a plurality of fully 1400 for Mr. Browne. Portage county gave Senator Browne 500 plurality while Wood county is so close that it is admitted that the plurality will not exceed twenty-five votes for either candidate for Congress and it is still doubtful which will be the winner by the small majority that will be closely watched by all candidates at the county ticket is still in doubt in the county.

In Marathon county, which was carried two years ago by 1400 for the democratic candidate for congress the majority of the democratic nominee was this year reduced to only 500, notwithstanding the fact that Mr. Plowman is a resident of that county, has been chairman of the Marathon county board and was two years ago assemblyman from his district. Mr. Browne carried the towns of Elderon and Cassion in Marathon county and, though only one Republican candidate for county office was successful, one district in Marathon county elected a republican to the assembly from a district that has in the past been considered a democratic stronghold.

Mr. Browne has made a speaking campaign, having addressed thirty eight large political gatherings of voters who were ready to hear all sides and decide for themselves as to the merits of the claims made by the opposing candidates.

A campaign of education is the one that counts and this is the sort of campaign that helped to give Mr. Browne a plurality of 5500 in the Eighth district.—Waupaca Republican Post.

Mr. Browne is the younger brother of Paul Browne of this city.

CRUISING IN LOUISIANA

Charles Vaughan arrived Monday from northern Louisiana where as a member of a cruising gang he spent two months looking over timber for the International Harvester company. The party at one time comprised ten cruisers, Prescott Calkins and Lyar Vaughan of this city, being also in the number. One of the crew was Billy Allen, the veteran cruiser and "lumberjack poet" of Wausau.

The International Harvester company owns vast tracts of timber in Louisiana and other southern states. Mr. Vaughan expects to do more work for the company later in the year.

Moved by Ald. Pecor seconded by Ald. Roepcke that the members of the Registration Board be allowed \$2.50 for their service. Carried.

Moved by Ald. Cain seconded by Ald. Gilley that the balance of bills be allowed as recommended and the proper officers be instructed to issue orders for same. Carried, all voting aye except Ald. Pecor voting no.

Moved by Ald. Leadbetter seconded by Ald. McDermott that the freight charges on dump cars be charged up and that they be notified of same by the proper officers. Carried.

A petition signed by W. R. Hinners for the privilege of laying a sewer on Frederick street from the North West corner of the East 40 ft. of Lot 6 Bk. 14 of the Original Plat and to connect same at manhole on Alban street, was read.

Moved by Ald. Leadbetter seconded by Ald. Cain that said petition be referred to the Board of Public Works and they be authorized to grant permission for laying of same either on the macadam road or on the boulevard. Carried, all voting aye.

The following report from the board of Public Works was read:

We, the Committee of the Board of Public Works to whom was referred the resolution ordering in a new street electric light at the corner of River and Vaughan street on the west side of the river, report as follows:

We find that the light is needed as there are about 25 houses and one store that would receive the benefit of the light. If the Council should order in the light we would recommend that the present light on Mill street be moved to the corner about 160 ft. south.

Signed.

Board of Public Works.

Moved by Ald. Pecor seconded by Ald. Cain that the report be accepted and the light ordered installed. Carried, all voting aye.

The following report was read: Rhineland, Wis., Nov. 7, 1912.

To the Common Council:

The undersigned Committee to whom was referred the matter of investigating the use of electric current for pumping city water, and of conferring with representatives of the Rhineland Power Company with reference to a re-adjustment of rates charged for same, respectfully report as follows:

At the first conference held with representatives of the Power Company it was mutually agreed that the only satisfactory basis of compensation for this service is one fixed up on the amount of current consumed by the city as distinguished from the flat rate, or any other rate based up on the volume of water pumped; that a proposition should be submitted the city upon such basis, and that a test should be made by the city showing the comparative cost of pumping water by steam and electric current.

Pursuant to this understanding an electric meter was installed and comparative tests made by the Superintendent of Water Works; the Power Company having in the meantime quoted a rate for electric current of 1 1/4 c. per K. W. hr., which is understood by this committee to be final.

During the period covered by the steam test the average daily consumption of wood was two cords of tamarack; and during the electric test the average daily consumption of electric current was 1120 K. W. hrs. approximately one million gallons of water being pumped daily during both periods.

Upon the basis of such test the comparative daily cost of steam and electric power, under present conditions, would be as follows:

Steam—

2 cords of wood at \$3.50, \$7.00.

Electric—

1120 K. W. hrs. at 1 1/4 c., \$14.00.

The discrepancy between the cost of steam and electricity, as shown by the above test appeared sufficiently great to warrant further and deeper investigation, and the Committee as cured for this purpose the services of Mr. L. A. DeGuere, a consulting engineer of Grand Rapids, Wisconsin.

Upon making a careful examination and investigation of the situation, Mr. DeGuere filed with the Committee his findings and recommendations covering the situation, which are annexed hereto and made part of this report. After a careful investigation of the subjects submitted, holding extended conference with representatives of the Power Company, and considering the findings and recommendations of Mr. DeGuere, the Committee is unable to see how the city could economically use electric current at the rate quoted without making extensive changes in its equipment.

At the present flat rate of \$200.00 per month it appears the city is receiving current at approximately .006 per K. W. hr., while the proposed rate is 1 1/4 c.

The present steam equipment of the city is doubtless of high efficiency while the electric equipment appears to be poorly adapted to an economical use of electric current for pumping under present conditions and without some considerable changes as to the latter it would appear hopeless for the city to attempt to reduce the cost of pumping with current to that of steam.

The investigations made by the committee lead to the belief that the rate quoted by the Power Company is not unreasonable, but that owing to the lack of high efficiency equipment on the part of the city, suited to the particular situation, such rate would result in a great increase in cost over steam.

Such investigation further leads to the conclusion that the amount of water being pumped by the city is greatly excessive, and consequently increases the cost of pumping water to an unnecessary figure.

It would appear also that in case of the adoption of steam it is highly probable that considerable reduction in cost might be made through the use of coal instead of wood.

Therefore, the undersigned committee respectfully make the following recommendations:

1st. That the 1 1/4 c. per K. W. hr proposition of the Power Company be not accepted unless the electric equipment be changed along the lines suggested by Mr. DeGuere.

2nd. That if operated by steam coal be used a sufficient length of time to test the comparative cost of same with wood.

Respectfully submitted,
Geo. C. Jewell, H. F. Steele,
H. Roepcke, A. D. Sutton.

Moved by Ald. Crosby seconded by Ald. Calkins that the city discontinue the use of the electric current for pumping purposes, at once.

Carried, all voting aye as the roll was called.

Moved by Ald. Baker seconded by Ald. Cain that the Board of Public Works be authorized to install proper sewerage pipes to take care of the flowage from the Soo-railway yard in the 2nd ward. Carried, all voting aye.

Upon motion Board adjourned.
GUST SWEDBERG, City Clerk.

PROCLAMATION BY PRESIDENT TAFT

He Designates Thursday, November 28 As Day For Thanksgiving

President Taft, Nov. 7, issued a proclamation designating Thursday November 28 as Thanksgiving day. The proclamation follows: "A God-fearing nation like ours owes it to its inborn and sincere sense of moral duty to testify its devout gratitude to the All-giver for the countless benefits it has enjoyed. For many years it has been customary, at the close of the year for the national executive to call upon his fellow countrymen to offer praise and thanks to God for the manifold blessings vouchsafed to them in the past and to unite in earnest supplication for their continuance."

"The year now drawing to a close has been notably favorable to our fortunate land. At peace within and without; free from the perurbation and calamities that afflicted other peoples; rich in harvest so abundant and in industries so productive that the overflow of our prosperity has advantaged the whole world; strong in the steadfast conservation of the heritage of self-government bequeathed to us by the wisdom of our fathers, and firm in the resolve to transmit that heritage unimpaired but rather improved by good use, to our children, and our children's children for all time to come, the people of the country have abounding cause for contented gratitude."

"Wherefore, I, William Howard Taft, president of the United States of America, in pursuance of long established usage, and in response to the wish of the American people, invite my countrymen, whosoever they may sojourn, to join, on Thursday, the 28th day of this month of November, in appropriate thanks to God for the good gifts that have been our portion, and in humble prayer that His great mercies toward us may endure." First Question at Every Fire--

How Did It Start?

Second Question: How About The Insurance?

To the first question the answer varies greatly. The answer to the second question is always either

"None At All!"

"Just Expired!"

or "Fully Covered!"

What would be Your answer were the Fire At Your House?

"BETTER BE INSURED THAN SORE!"
